Frontend Development Projects

HIIT Workout App (React JS):

- **Summary:** High Intensity Interval Timer (“HIIT”) in which the user can set the amount of rounds they’d like along with the work/rest duration for each round. During the workout, the user can stop the timer, reset the work/rest duration they’re on, move to the previous/next duration, restart the workout, or update the workout preferences for a new workout.

THEFIGHTCLUB – Boxing Social Media:

- **Summary:** Social media site for boxing athletes, coaches, and gym owners. Connections between the profile types, such as an athlete’s teammates and coach, provide interesting/useful information for those involved in boxing professionally. Users can create an athlete/coach/gym profile, edit their profile picture, add a picture post, and browse the profiles already available on THEFIGHTCLUB.
